LIGHTTOOLS SOFT EGG CRATES

Chimera's Lighttools Soft Egg Crates® Fabric Grids deliver the greatest range and control of soft light. Lighttools Soft Egg Crates® come in a variety of cell sizes each with dramatically different effects. The original design has been copied but there is no match for the extensive range of products and impeccable quality. The collapsible, lightweight Soft Egg Crates are manufactured in North America by skilled technicians using superior-quality fabric that is exclusive to Lighttools. Backed by the best warranty in the business, their quality management ensures that only perfect products are sold. (6 year warranty on all Lighttools products).

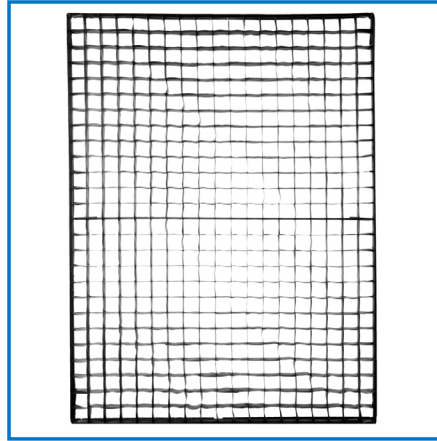

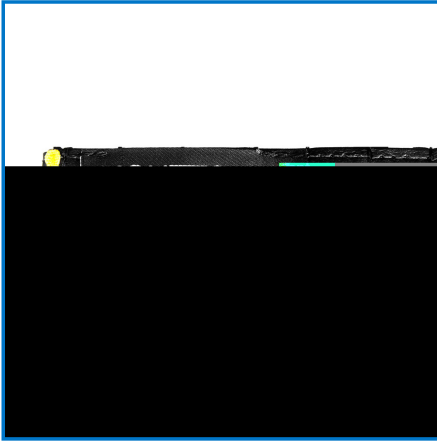

- Create separation and depth
- Eliminate spill and flare
- Reduce near-to-far light value variations
- Transport and store crates easily
- Spend more time on lighting design

Lighttools ez[POP] Soft Egg Crates combine innovation in lighting and setup with a built-in tensioning frame; this keeps the Soft Egg Crate taut and in perfect formation regardless of how your softbox is angled.

- Quick
- Lightweight
- Compact
