WARRANTY
At CHIMERA, we stand behind our Lightbanks, Speed Rings, and
light control accessories with a limited 5-year warranty against
defects in materials, workmanship, and color stability. If our
products are not fully operational out of the box or if they fail to
perform within five years from the date of purchase, return it for
repair or replacement. Of course, CHIMERA’s warranty cannot
cover damage caused by accidents, improper care or use, or the
natural deterioration of materials over an extended period of time.

#1650 LP-1x1 LED Kit
for Litepanels 1x1 Lights
Thank you for purchasing your Chimera LED Lightbank for the Litepanels 1x1 light. Using our unique Lightbank will enhance the quality and versatility of your LED light. Chimera’s commitment to produce professional, dependable and versatile products for the lighting industry has not changed since 1980.

Contents
- Lightbank with poles attached.
- Standard #LS30 Front Enhancer Screen.
- Security Tab Velcro™ button.
- Speed Ring Frame.

Assembly
1. The poles are already attached to the Lightbank body so your Lightbank is ready to be mounted into your Speed Ring Frame. Start by opening the relief corner Velcro™ tab on the Lightbank.
2. Position the Lightbank with the Chimera Logo to match a notched side of the Speed Ring Frame. Insert all poles into the Speed Ring Frame at the proper angle leaving the relief corner pole last. Close the relief corner Velcro™ tab.
3. The Speed Ring Frame cutouts fit at the top and bottom of your light. Slide the Speed Ring Frame into the channels on your Lightpanels 1x1 Light.
4. Mount the Standard Front Enhancer Screen to the Lightbank with the Velcro™ edges.
5. The top Security Tab prevents the Lightbank from sliding off when carried upside down. Affix the supplied Velcro™ button to your light to align with the Security Tab.
6. To disassemble, remove the Front Enhancer Screen. While maintaining the angle of the pole, remove the poles from the frame carefully. Leave the poles in the Lightbank. Always make sure that your Lightbank is clean and completely dry before storing.
7. Carefully store your Front Enhancer Screen flat in any secure storage case. Clean your Front Screen with rubbing alcohol and a soft fiber-free cloth as needed.
