OVERHEAD LIGHTBANKS

THE ULTIMATE IN LARGE AREA LIGHTING

F2 overhead banks work best with Chimera's Triolet but are easily adaptable to work with most all other light sources using a 5/8" baby pin, including strobes, HMI, tungsten & many LED fixtures. Consult the factory for the specifics about using your desired fixtures.

THE NEW PORTABLE F2X LIGHTBANK CAN BE USED IN THE STUDIO OR ON LOCATION

- Constructed of super strong, aircraft- grade aluminum tubing.
- Color-coded frame sections for quick assembly - saving time and money.
- No tools required for assembly.
- Complete with 15" x 60" duffles for ease of portability.

THE MODULAR F2 LIGHTBANK IS PERFECT FOR PERMANENT STUDIO INSTALLATIONS

- The welded modular frame is constructed of high strength aircraft grade aluminum tubing.
- Modular sections measure 3 feet high by 10 feet long for fast, efficient set-up.
- The Modular F2 requires freight transportation.

F2X TRIOLET KITS

The F2X Triolet Kits include Triolet Lights and are available to provide a complete solution.
