

# TECH LIGHTBANKS FOR ARRI SKYPANEL S30 / S60 / S120

## ASSEMBLY INSTRUCTIONS

1. Insert the four poles into the pole channels within the Lightbank fabric. Ensure the round un-notched end face toward the front and is fully seated into the front corners.

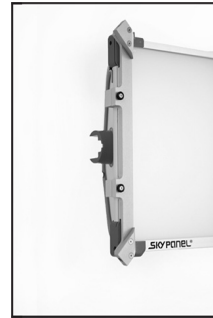

2. Next, insert the poles into the provided S30 / S60 / S120 mounting frame, aligning the short side of the lightbank with the short side of the frame.

2.1 Note that the S60 Shallow lightbank (model#1638) utilizes different poles for the thicker end of the rods insert into the speeding.

3. Attach the inner baffle and outer screen using the sewn-in hook and loop material  
Note: the S60 Tech utilizes the same front screens as Chimera video Pro Medium lightbacks, and S30 Tech utilizes Chimera Video Pro Small front screens.

4. Alternatively, If using the Universal Mounting Bracket on the sides of the S30 / S60 / S120 fixture loosen the knobs, attach, and then tighten the knobs of the mounting Bracket, orienting the long side of the fixture with the long side of the light.
